

HOW TO MAKE A BALLET BUN!

Things You'll Need:

- Hairspray
- Hair brush
- Hair band
- Bobby pins
- Hair net

STEP 1

Gather hair in a ponytail

Gather hair in a ponytail. Pull back as much of the hair as you can. Hairspray any loose hair, comb it back and secure the ponytail with a hair band.

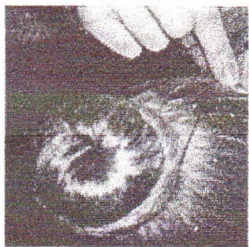

STEP 2

Twist and wrap hair into a bun shape

Twist hair into one long strand and wrap it around into a bun shape. Use one or two bobby pins to secure the coiled hair into the hair underneath the forming bun.

STEP 3

Use a hair net to cover the bun

Cover the bun with a hair net. You can keep adjusting and tightening the hair net until it fits snugly over the bun. Use extra bobby pins if needed.

STEP 4

Use extra bobby pins if needed

Use as much hairspray as needed to keep the bun neat and to eliminate loose hairs. For thick, long hair, a flat bun is preferable--simply flatten the bun with the palm of your hand--removing the bobby pins you've placed over the hair net first--then secure the flattened bun with bobby pins.
